recipe books

*Chocolate, chocolate
everywhere,*

*On my face and in
my hair.*

*In my ears and
up my nose,*

*Stuck on all my
favourite
clothes.*

*I love chocolate,
can you tell?*

Sometimes I don't feel so well!

*I even see it when I sleep,
I count chocolates instead of
sheep.*

**Chocolate Poem
by Jake Randall**

Chocolates ... the health factor

*"Eating dark **chocolate** could help control diabetes and blood pressure",
Italian experts say.*

*"The bottom line is that **chocolate** does make women feel good,"
Waterhouse says.*

*"If the message -- loud and clear -- is **chocolate**, trust your body, let go of the guilt."*

Is Chocolate healthier than green tea?

*"**Chocolate** contains up to four times the anti-oxidants found in tea."*

Chocolates ...

a novel

CHOCOLAT
by Joanne Harris

Chocolat is a timeless novel of a straitlaced village's awakening to joy and sensuality.

“...Vianne Rocher and her exquisite chocolate shop arrive and instantly begin to play havoc with Lenten vows.”

Chocolat's every page offers a description of chocolate to melt in the mouths of chocoholics, francophiles, armchair gourmets, cookbook readers, and lovers of passion everywhere.

It's a must for anyone who craves an escapist read, and is a bewitching gift for any holiday.

Chocolates...

the rules!

1. *If you've got melted chocolate all over your hands, you're eating it too slowly.*
2. *Hot tip: Eat a chocolate bar before each meal. It'll take the edge off your appetite and you'll eat less.*
3. *Store your chocolate on top of the fridge. Calories are afraid of heights, and they will jump out of the chocolate to protect themselves.*
4. *Money talks. Chocolate sings.*
5. *Chocolate has many preservatives. Preservatives make you look younger. Therefore, chocolate is therapeutic.*
6. *Put "eat chocolate" at the top of your list of things to do today. That way, at least you'll get one thing done.*
7. *A nice box of chocolates can provide your total daily intake of calories in one place. Isn't that handy?*
8. *If you can't eat all your chocolate, it will keep in the freezer.*

But if you can't eat all your chocolate, what's wrong with you?
