

# xCentric Ideas

Decorate and organize with a hanger .....

Great way to store glasses.

<http://www.sfgirlbybay.com/2012/02/06/vintage-finds-for-a-modern-world-brand-new-life/>

You can use hangers to store all sorts of things. For example, if you like DIY projects and crafts, then you might want to have a place to store all your ribbons and such. In this case you can use an old hanger for that. You'll have to cut off the middle of the hanger and then to insert your ribbon spools and to fix it back with some duct tape.

Here's another very practical and creative idea: turn a hanger into a storage device for your flip-flops. Even though flip-flops don't take much space they are difficult to store so this system could actually save you some valuable space. All you have to do is take a hanger made of metal, cut off the bottom part and then curl the two parts upwards. It's very easy and it's also very practical

If you don't have enough space in your closet for all the little accessories like scarves, gloves, etc., then you should definitely use this idea as inspiration. Take a coat hanger and some clothespins and you get a very simple and useful storage system for all your accessories. You can hang it anywhere.

These hangers are actually used for the same purpose they were created: storing and holding clothes and accessories. In this case they are used as towel holders but the interesting detail is that they are placed upside down. This way you can hang a towel on the hook and another smaller one on the actual hanger.

This is a hanger holder which you can use for magazines and newspapers. It's basically just a hanger attached to a knob. You can use any hanger, not just wooden ones. You can also hang it anywhere you want. The whole idea is to have the magazines within arm's reach.

Instructions from blogger: "Ryan first cut the hangers so we could attach them to a reclaimed board cut to size. He took the hangers after they were cut & *after I wrote on them with a thin sharpie* and he screwed them onto the board from the back. He then hung the board onto the wall using a drill & some screws and it was finished."

One of the best parts of this coat rack is that the hanger hooks can be turned any direction. I even wrote some funny things on the hangers."

If you would just rather use the coat hangers for their intended purpose, then you might want to at least give them a more colorful look. You'll need wire hangers, yarn, tape and scissors. Tie the yarn right under the curve at the top of the hangers and wrap. Make sure it's tight. Use tape to keep it secure at the end

You could also use a coat hanger to make a small storage space for lightweight books / magazines or other items. You will first have to unfold the hanger and then fold it in the desired shape. You can use pliers if you want. It won't be able to handle large weights so be careful what you store in it. You can also paint the hanger if you want.

Use an old skirt hanger to make a beautiful wall display. You'll need lots of clips and a nice-looking hanger. You can display photos and all sorts of little treasures that are nice to look at. Just find a spot for it and enjoy your new decoration. It takes no more than a few minutes to make and you can also improve on the design if you want.

It's a DIY upside down hanger. As you can see by yourself, all you have to do is pick a hanger that you like, preferably something simple and sleek, and hang it upside down. It will serve as a nice display piece and storage system for keys, jewellery or small accessories but it can also be just an unusual decoration for the wall.

What a cute idea for an advent calendar. Making one from a coat hanger is actually very easy. You just have to find a hanger that you like and decorate it for Christmas. You can use Christmas decorations or colored paper, ribbon, tape, anything you want.

<http://frydogdesign.blogspot.co.za/2011/11/advent-calendar.html>

Screw small hooks onto wooden painted hanger, choose bright ribbons and hang your advent gifts.

<http://angellatable.blogspot.co.za/2006/12/adventskaender.html>

Paint a wire hanger. Glue on a golden star. Hang decorated paper bags with gifts for your advent countdown.
